People are really talking about Grab Guard...

Created by a mother of 5, "Grab Guard" is a simple to use, affordable way to protect a purse, backpack, computer bag, and anything you carry.

Tired of being vulnerable to thieves anywhere you go with a purse, briefcase, laptop case or anything else?

Grab Guard® is THE anti-theft solution. So easy to use-one snap & your belongings stay where they belong- with YOU. This innovative device fits in the palm of your hand. With one quick pull of the unique "Lock Line" and the simple setting of your 2 digit personal lock code, Grab Guard® securely attaches anything with a handle or strap to any safe location.

Grab Guard® has been created in colors to fashionably fit women's handbags and men's briefcases, as well as in bright, fun colors for kid's backpacks, Grab Guard® works for everyone's personal security needs in every situation.

Security

At Grab Guard®, we have a purse lock for every occasion: formal, casual, even a day at the beach. Let us show you how to fashionably secure your purse, lock backpacks while protecting your valuables and personal identity with Grab Guard. Remember which piece of luggage or backpack is yours? Use a brightly colored Grab Guard to quickly identify and later secure your backpack or luggage at the hotel. Black is fashionable for any occasion. Briefcase, laptop and motorcycle helmet security are each complemented using a black Grab Guard. Golf bags, snow skis and snowboards are items at high-risk for theft. No worries on the green or in the clubhouse if you secure your golf bag or other sports equipment with Grab Guard.

Style

You can rely on Grab Guard to enhance briefcase security while at the airport, visiting a customer, at the library or while enjoying coffee with a client. Off to the restroom with your little one? Use Grab Guard as a stroller lock to deter a thief intent on taking your stroller for a joy ride. Attending a buffet-style dinner? Secure purses securely to your chair; prevent others from unknowingly taking your coat or your umbrella from the cloak room, all with Grab Guard. Concerned about your luggage? Luggage security is a snap with Grab Guard. After pulling out the steel cable, loop the cable through one or more personal items and a securely anchored bench, post or other object.

How it works

To set your personal code.

Step 1

All Grab Guards come preset to "00". Press cable release button to release cable. Push cable retract button until cable is fully retracted. Push cable head down until you hear a "click".

Step 2

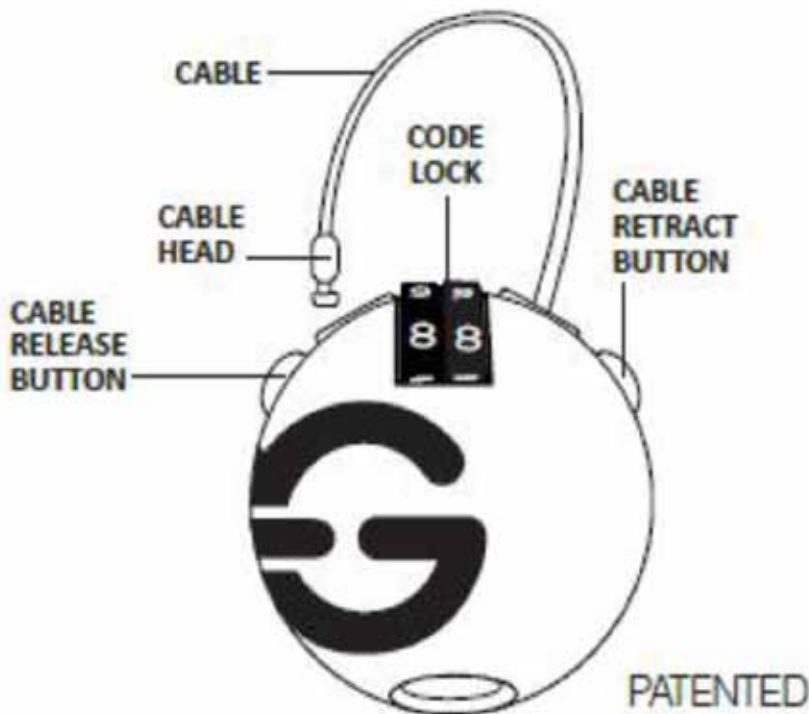

To lock, choose your own personal 2 digit combination by turning the dials to the number you would like. REMEMBER that number.

Step 3

Press and hold the cable retract button down and gently pull the cable out until it is fully extended. The cable must be completely extended in order to set your new personal combination. Once the cable is fully extended, your new personal combination is automatically set.

Step 4

Insert the cable head into the Grab Guard until you hear it click. To test your new personal combination, press the release button. The cable should release. Re-insert cable head and your new Grab Guard is ready for use.

People are really talking about Grab Guard...

“Just imagine someone running off with all the information on your netbook or laptop! Grab Guard is there to protect us against such loss.”

– Babas Farm Life

“Now I can concentrate on the more important things in life like playing with my boys versus worrying about my items getting stolen.”

– Mommy PR.com

“With two small children, I am constantly distracted. My purse is the last thing on my mind. Now I can lock my purse to the grocery cart and not have to worry about it!”

– Mommies With Cents

“When I had the opportunity to try the Grab Guard I was really excited! I can see how this would solve A LOT of problems for people and I am happy to say, this is now carried with me! I love it for those times I am in the restaurant, but also the times I have to take my laptop

One Scrappy Mom.com – out with me. I know when I travel I will GLADLY use this!”
